

The Bimonthly European Industrial Pharmacists' Newsletter

AUGUST 2025

Regulatory Affairs

Latest EMA's updates on the use of RWE in regulatory decision-making

EMA's latest annual report highlights a surge in real-world evidence studies—now smarter and faster via DARWIN EU—boosting safety, drug use, and epidemiology insights in regulatory decisions across Europe.

Webinar

GDP Guidelines: Time for a Revision

The webinar, held on July 8th, saw high participation due to strong interest in a hot topic: the developments in GDP regulations. Participants received a certificate of attendance, and the material can be downloaded from the dedicated section of the EIPG website.

Business & Policies

Steps towards the new Pharma package and the EU Startup and Scaleup Strategy

Europe reimagines its innovation landscape: unlocking growth through a streamlined pharma package and a bold startup and scale-up strategy. Together, they pave the way for pioneering ideas to flourish—breaking barriers across research, markets, and talent.

Webinar

Nanomaterials for pharmaceutical applications

Join the EIPG webinar "Nanomaterials for pharmaceutical applications" with Enrica Chiesa and Silvia Pisani (University of Pavia). Explore nanosystems, drug delivery and formulation strategies. September 22, 17:00 CET. Sign up!

Training
